Percent							

Determining Reliability:

1. Record Primary recorder/coder scores in first line
2. Record Reliability recorder/coder scores in second line
3. Record the number on which they agreed on the third line
4. Record the number on which they disagreed on the fourth line
5. Calculate Percent Agreement for each Key Element category
6. Calculate Overall Percent Agreement using total scores
7. Calculate Average Percent Agreement across categories (add agreements and disagreements across categories (third and fourth lines))

Formula for determining percent agree =

$$\frac{\text{Agreements}}{\text{Agreements} + \text{Disagreements}} \times 100$$
